

The SFG uses ISO 14065:2020 Standard to conduct verification for Environmental Information claims including Greenhouse Gases (GHGs). Within this verification process, the ISO 14064-3:2019 Standard verification process framework is specially used to conduct verification for GHG related activities. The ISO 14065:2020 Verification process is given below.

**The ISO 14065:2020 Verification Process**
